## Objective

Motivated and detail-oriented software developer seeking to leverage my coding skills and passion for technology to contribute to dynamic, innovative teams.

## Education

Bachelor of Science in Computer Science  
University of Illinois at Urbana-Champaign  
Graduated: May 2023  
GPA: 3.7/4.0

## Skills

- Programming Languages: Python, Java, C++, JavaScript
- Frameworks: React, Node.js, Flask
- Tools: Git, Docker, VSCode, Postman
- Databases: MySQL, MongoDB
- Concepts: OOP, REST APIs, Agile Development

## Experience

Software Development Intern  
TechNova Solutions – Chicago, IL  
June 2022 – August 2022

- Developed internal tools using Python and Flask to automate daily reporting tasks
- Integrated third-party APIs and improved data pipeline performance by 20%
- Collaborated with a team of 5 developers in an Agile environment

Web Developer (Freelance)  
January 2021 – Present

- Built responsive websites for small businesses using HTML, CSS, and JavaScript
- Set up analytics and SEO optimization for better visibility
- Communicated with clients to gather requirements and deliver results on time

## Projects

TaskMaster (To-Do App)

- Built with React, Node.js, Express, and MongoDB
- Features user authentication, CRUD operations, and a clean UI
- Deployed on Heroku

ChatBot AI

- Implemented a simple chatbot using Python and natural language processing
- Trained the bot with a custom dataset to answer FAQs for a mock company

## Certifications

- AWS Certified Cloud Practitioner
- Google IT Support Professional Certificate

## Interests

- Open-source contribution
- Hackathons and coding challenges
- Retro game emulation
